## TECHNICAL SKILLS

<b>Programming</b>	TypeScript, JavaScript, Node.js, HTML (HTML5), CSS, Sass SCSS, Python, SQL
<b>Frameworks/Libs</b>	React, Redux, Next.js, Express.js, Django, Flask, Tailwind CSS, Bootstrap, Material UI, Cypress, Jest
<b>Database</b>	MongoDB, PostgreSQL (Postgres), MySQL, Firebase, Firestore
<b>Other Tools</b>	Amazon Web Services (AWS), Google Cloud Platform (GCP), Git, GitHub, Docker, Kubernetes, Figma, WebSocket, Vercel

## WORK EXPERIENCE

### Lead Full Stack Software Engineer

#### Dart Health (Puzzl Inc)

09/2021 - 02/2024

San Francisco, CA

Startup: CRM --> Fintech --> Healthcare Compliance

- Tailored a healthcare compliance chatbot with OpenAI Assistants API, reducing user questions to the cofounders by 40% and easing their workload. (Node.js, Express.js, TypeScript).
- Implemented automated unit testing and end-to-end testing with Jest (backend) and Cypress (frontend), significantly reducing bugs and saving 15-20 hours per week in testing cycles.
- Integrated Stripe Connect, boosting transaction efficiency and driving increased revenue. (B2B and B2C SaaS).
- Generated custom invoices with Adobe PDF Services Node SDK and integrated QuickBooks, enabling businesses to efficiently track payments and invoicing.
- Developed a responsive project portal and messaging system, streamlining workflow management for businesses. Imagine a combination of Linear and Slack. (React, TypeScript, Tailwind CSS).

### Software Developer Intern

#### MarketFly (Acquired)

01/2021 - 09/2021

San Francisco, CA

SaaS Startup

- Played a key role in the startup's successful acquisition by designing a marketing automation feature for users to authenticate across Facebook, Instagram, and Twitter to schedule posts, scaling platform capabilities.
- Constructed a REST API and integrated Bannerbear API for social media visuals generation, significantly increasing user engagement on the platform. (Node.js, Express.js, TypeScript).
- Collaborated with UI/UX designers to convert Figma wireframes into React code, cutting design and development time by 20%.
- Formulated complex database schemas, optimizing query performance and ensuring scalability. (MongoDB).

## EDUCATION

### Bachelor of Science (B.S.) in Computer Science

#### San Francisco State University

06/2022

- Software Engineering, Artificial Intelligence, Analysis of Algorithms, Databases, Internet Application Design and Development, Object-oriented Programming (OOP), Data Structures and Algorithms, Design Patterns.
